ANNUAL REPORT  
OF THE  
ELECTION DEPARTMENT

FOR THE YEAR ENDING JANUARY 31, 1913.

---

BOSTON, March 19, 1913.

HON. JOHN F. FITZGERALD,  
*Mayor of the City of Boston:*

SIR,—In compliance with section 24 of chapter 3 of the Revised Ordinances, the Board of Election Commissioners respectfully submits its annual report.

NUMBER OF VOTERS.

At the city election held January 9, 1912, the number of male voters on the list was 111,352. The number of such voters on the first list published by the Board June 1, 1912, was 98,733. From that time to the close of registration for the city election there were added the names of 14,533 male voters. The number of male voters on the final list sent to the polls on the day of the city election held January 14, 1913, was 112,126, an increase of 774 over the number on the list at the city election in 1912.

There were 12,255 female voters registered for the city election in 1912. There were 11,127 female voters registered for the city election in 1913, a decrease of 1,128.

## MEN AND WOMEN WHO VOTED.

The following is a table showing the per cent of the number of registered voters who voted at the state primary, state election and city election since the establishment of the Election Board in 1895:

\* New general registration in Boston.

† City election changed from December to January.

In the first election held under the new charter in January, 1910, at which the Mayor, nine members of the City Council and one member of the School Committee were elected, 85.42 per cent of the registered vote was cast. At the city elections held in January, 1911 and 1912, three members of the City Council and two members of the School Committee were elected each year; in 1913 three members of the City Council and one member of the School Committee were elected. The percentage of the vote cast in these elections constantly dwindled, and constitutes a disquieting factor in the municipal government of Boston.

## VOTERS WHO DID NOT VOTE.

There were 107,685 registered voters entitled to vote at the state primary; of this number 98,733 were carried on the voting list of this year by the Election Department; 8,952 were supplementarily registered, *i. e.*, they were required to appear in person at a registration place and prove their qualifications as voters.

We have made an investigation of the records in our office to ascertain the number of those persons who did not vote in this city at the last state primary, state election and city election, *i. e.*, the number of voters who had three opportunities to vote but did not avail themselves of any. We have paid no attention to those who were registered after the state primary or after the state election, because such persons did not have three opportunities to vote, but have only considered the 107,685 voters who were eligible to vote at the state primary, state and city elections.

The following is a table showing the number on the first printed list and the number on the first supplementary list who did not vote at the state primary, state election or city election:

Totals.....	98,733	14,284	8,952	473	14,757	13.70

The first column of the above table shows the number of registered male voters carried by the April listing entitled to vote; the second column shows the number of persons so carried on the voting list who did not vote; the third column shows the number of voters on the supplementary list; the fourth column shows the number supplementarily registered who did not vote; the fifth

column shows the total number of voters who did not vote; the sixth column shows the percentage of voters who did not vote.

The percentage of those carried on the voting list without any act of their own who did not vote is 14.46 per cent. The percentage of those on the supplementary list, *i. e.*, those who were required to appear in person and prove their qualifications, who did not vote is 5.52 per cent, apparently showing that the persons who had to sacrifice a little time to get on the voting list were more diligent in voting than those whose names were automatically carried on the voting list.

Various suggestions have been made to increase the interest of the voter in primaries and elections, such as by fining him for neglecting to vote, or by posting his name for such neglect, neither of which, in our opinion, is a proper remedy. We believe that if a registered voter does not vote at all during the year the voting list is used, his name should be stricken from the voting list and he should be required to re-register if he desires to vote, even though a constitutional amendment may be necessary to put this proposition into effect.

#### NATURALIZATION.

In 1906 an act was passed by the Federal Government to establish a Bureau of Immigration and Naturalization and to provide for a uniform rule for the naturalization of aliens throughout the United States.

The following is a table showing by years the number of declarations in Massachusetts, the number naturalized, the number of declarations in Suffolk County and the number naturalized:

YEAR ENDING JUNE 30.	Declaration, Massachusetts.	Naturalized, Massachusetts.	Declaration, Suffolk County.	Naturalized, Suffolk County.
1907.....	4,846	383	3,518	318
1908.....	9,330	1,677	6,508	965
1909.....	10,025	2,453	6,293	1,405
1910.....	11,795	3,048	7,792	1,776
1911.....	12,788	4,065	8,243	2,589
1912.....	13,017	4,608	7,768	2,675
Totals.....	61,801	16,234	40,122	9,728

This table is not only interesting in showing the disparity between the number of citizens naturalized

and the number of aliens who made declarations of intention to become citizens, but also in showing the small number naturalized in this state since the act went into effect.

We believe that one of the impediments to naturalization is the law requiring an applicant to produce at least two witnesses who are citizens of the United States to verify by affidavits the naturalization petition of the applicant, such witnesses being required to state in their affidavits that they have personally known the applicant to be a resident of the United States for a period of at least five years continuously, and of the state, territory or district in which the application is made for a period of at least one year immediately preceding the date of the filing of his petition.

An applicant for naturalization who has all the necessary qualifications, by reason of a change of residence from one state to another, or from one district to another, may find it impossible to produce the witnesses required by law, and is thereby prevented at that time from becoming a citizen of the United States. It would seem that all the safeguards now surrounding naturalization, including the declaration of intention, which must be made at least two years prior to the admission of the applicant in all cases except those of soldiers and sailors honorably discharged from the service of the United States, the petition for naturalization, in which is a statement of all facts necessary to identify the applicant, and the certificate from the Department of Labor, stating the date, place and manner of his arrival in the United States, would render the production of at least two witnesses unnecessary. The attendance of such witnesses at court is a burden to the petitioner and a source of trouble and expense to the witnesses themselves.

We are of the opinion that if the Federal Government repealed the law requiring the affidavits of at least two witnesses, an impediment to naturalization would be removed without lessening the essential safeguards now surrounding the issuing of naturalization papers.

#### PRESIDENTIAL PRIMARY.

The presidential primary for the election of delegates and of alternate delegates to the national conventions of political parties was held on April 30, 1912. The

law required that such election should be by direct plurality vote. The act also provided for the expression of preference for candidates for President and Vice-President of the United States. The act was hurriedly drawn and the construction of its provisions was not free from difficulty. Under the law, as it now is, a candidate for the nomination of President may receive the highest vote in the primary of his party and yet lose the delegates pledged to vote for him in the national convention. This is what actually occurred in this state.

Amendment should be made to the law so that the decision of the voters as to their choice for the nomination of a candidate for President will be unquestionable.

#### JURORS.

The jury list prepared by the Board of 1912 contained the names of 8,707 voters of Boston. During the time covered by this report 3,012 persons were drawn for jury service. The investigations made by the police and by the clerks of this Board greatly assisted the commissioners in eliminating from the jury list persons who were not qualified for jury service.

#### REVISION OF THE VOTING LIST.

The names of 1,128 voters were stricken from the voting list by reason of death, removal from the city and other causes. This is the largest number of names stricken from the list in any year since the establishment of the Election Board. There were no complaints of illegal registration.

#### NEW PRECINCTS.

Ward 24, Precinct 8, at the time of the city election contained 1,068 voters. It becomes necessary, therefore, for the City Council to divide that precinct into new precincts, or to make a redivision of the entire ward into voting precincts. This Board recommended that a new division of the ward into sixteen voting precincts be made, which will make the number of precincts in the city 225.

## SCHOOLHOUSES.

The department now uses the basements of 93 schoolhouses for polling places, and pays the School Department for heating and lighting only, and the schoolhouse janitors for placing in position and taking down the rails and voting compartments at each primary and election.

The advantages of using schoolhouses are many. In the first place, permanency of the voting place is secured; secondly, it is more economical to use the basement of schools than stores or booths, and indirectly it is of benefit to the scholars, for many masters take them to the polling place during the progress of an election and they obtain there a very practical lesson in civil government. The use of these basements does not interfere with the school work.

## WARD 26.

A new general registration of the voters of Ward 26 was held this year, as provided by the act of annexation, and a generous opportunity was afforded to the citizens of that ward to register as voters. 2,707 voters availed themselves of this opportunity. As our report of the preceding year shows, there were 3,053 voters entitled to vote that year at the city election in said ward. There still remains a considerable number of persons who have the qualifications as voters in said ward who have neglected to register.

## MEMBERSHIP OF THE BOARD.

The term of Edward A. McLaughlin, Esq., expired March 31, 1912. Hon. John B. Martin was appointed

as his successor for the term of four years ending March 31, 1916, and was approved by the Civil Service Commission. He assumed the duties of his office May 1, 1912.

John M. Minton, Esq., was designated by the Mayor as chairman of the Board of Election Commissioners and member of the Listing Board.

### ESTIMATE FOR THE ENSUING YEAR.

 Total . . . . .	 <u>\$159,528 07</u>

The increase in the expenditures of the Election Department from \$138,826.65 of the preceding year to \$159,528.07 in the current year is due to the expense of conducting the presidential primary, held in each precinct of the city, and a special primary and election for Representative to the General Court in the Eighteenth Suffolk District, both of which cost at least \$17,000; the increase in the number of precincts from 206 to 221, and a new general registration in Ward 26.

#### ELECTION STATISTICS.

The following pages show in tabulated form the number of persons listed, the number of registered male and female voters, the vote cast at the special primary and election in the Eighteenth Suffolk Representative District, at the presidential primary, the state primary, the state and city elections. We have also included in this report the votes cast at the special primary and election in the Third Suffolk Representative District, because the election was held to fill a vacancy caused by the death of a member who was elected at the preceding state election.

#### INVENTORY.

An inventory of the property of the department will be found on the last page.
